## PROFESSIONAL EXPERIENCE

### SENIOR UX DESIGNER, TRIMBLE; PORTLAND, OR 09/2021-PRESENT

- Led an international design team to create a modern suite of SaaS tools focused on accounting and finance solutions for the construction industry
- Successfully migrated 60,000+ users to new login system with less than 0.5% error rate by improving user flows and information architecture
- Conducted comprehensive user research, including:
  - Customer and stakeholder interviews
  - Contextual inquiries
  - Moderated usability tests
  - Competitive audits
  - Heuristic analysis
- Contributed to Trimble's Design System development, leading the team responsible for responsive design layouts and components to ensure consistency, accessibility and scalability across products

**SENIOR UX DESIGNER, GOLDSTAR EVENTS; PORTLAND, OR – 05/2015-09/2021**

- Led the design of B2B solutions for ticket suppliers, enabling efficient management and promotion of inventory within the system
- Designed administrative tools for managing online events, optimizing workflows for partners and internal teams and reducing event posting time by 30%
- Created mobile-first solutions for consumers, including a redesigned seating chart UI to enhance the checkout experience that improved conversion by 10%
- Developed add-ons for partners, such as integrations with Eventbrite, to expand platform capabilities

**UX DESIGNER, LIGHTSPEED SYSTEMS; PORTLAND, OR – 07/2012-03/2015**

- Designed cross-platform solutions for My Big Campus, a K-12 learning management system, supporting Android, iOS, Windows, and web applications
- Implemented semantic markup and scalable CSS to ensure web applications were efficient, maintainable, and accessible, resulting in a 40% faster load time
- Introduced and developed a live style guide adopted across multiple web products, promoting design consistency and streamlining collaboration with developers
- Collaborated on e-learning platforms and classroom management applications, enhancing usability for educators and students

**UX DESIGNER, HP AGRISYSTEMS; SAN LUIS OBISPO, CA – 11/2011-07/2012**

- Created visual identity and interfaces for horsepower.com, an agricultural e-commerce startup
- Managed front-end development for digital platform
